**DETAILED ACTION**

1. Pre-amendment filed on June 29, 2004 has been entered.
2. Claims 1-21 have been canceled.
3. Claims 22-65 have been added.
4. Claims 22-65 are presented for examination.

***Election/Restrictions***

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 22-39, drawn to an apparatus of a DDR memory device.
  - II. Claims 40-65, drawn to a method for accessing a memory device.
6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
7. Claims 22-39 disclosed an apparatus specified to a DDR memory device, but claims 40-65 disclosed a method can apply for any memory device.
8. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
